Assemblies

## QUALITY POLICY

*Quality Workmanship is an essential part of our business and must be a top priority for every associate. At HK Metalcraft, we strive to always meet customer demands for “zero defects” and “self-certification” because anything less risks the sustainability of our company.*

*Only through the efforts of all our associates can we remain a leader in this highly competitive industry and maintain our reputation for quality workmanship.*

Raymond H. Hopp  
President & CEO

Robert L. Osborn  
Vice President & COO

Domingo A. Lauria  
Quality Manager
